DETAILED ACTION

Allowable Subject Matter

1. Claims 32-50 are allowed over the prior art of record.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of the claims is that the prior art neither teaches nor fairly suggest a method for fabricating an infrared optical and device as presented in the independent claims 32 and 47. Major emphasis is being placed upon the provisions of "*masking the field of posts with a shape defining a cavity in the surface of the wafer; etching the wafer surface including the field of posts so as to form a cavity in the wafer (claim 32) and masking a surface of a wafer of material capable of transmitting infrared radiation therethrough with a pattern defining a field of posts (claim 47),*" in combination with other limitations of the said claims and their dependent ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
